CAPABILITY STATEMENT

SUMMARY

Your project deserves the highest attention and quality re-sources available. From design to manufacturing we assist you with development, tooling, and production in exactly the way you would expect.

SEA-LECT Plastics Corporation has provided the Navy at NSWC Indian Head MD, plastic injection molded parts for more than 14 years. Our skilled work force, improved processes and innovation, is the reason why we became the leading injection molding company in the Pacific Northwest. When high-value private companies, government entities, and partners need injection molding, tool & die, design and development they know we will find the right solution at **SEA-LECT Plastics Corporation**.

CORE CAPABILITIES

INJECTION MOLDING: Plastic injection molding has countless applications, is an extremely cost-effective way to produce parts and components in small and large quantities. Saving you time, resources and money.

TOOL & DIE: In-house tool makers guarantee you the best possible price and quality. We ensure each mold is built precisely to your specifications and with stand the highest pressures of all your uses.

OTHER SERVICES:

- Ultrasonic Welding Pad Printing
- Hot Stamping Drill
- Tap Assemblies
- CNC Machining
- UV Coating

**ALL PARTS MADE &
PRODUCED IN THE USA**

SEALECT PLASTICS™

CLIENT TESTIMONIAL

"I have worked with SEA-LECT Plastics for over a decade. The service and quality are unrivaled ...great company and great people."

Dino Trittis Industrial Revolution, Renton WA

"Eddyline Kayaks has worked closely with SEA-LECT Plastics for at least 15 years. They have assisted in the development of specific kayak related components. During the development phase we found them to be very responsive to our ideas and suggestions. In the manufacturing phase, they were quality oriented, good communicators, and provide excel-lent customer service. We look forward to doing business with them well into the future."

Tom Derrer Eddyline Kayaks, Burlington WA

Washington Security Products has been doing business with Sea-Lect for over 30 years. They have built many of our molds and their tool room is top notch for maintenance and modifications to our tools. Every order placed is done on time and I have great communication with every person involved starting from the time the order is placed to the shipping department. I believe Sea-Lect strives to improve their business and year after year they continue to go above and beyond.

Bryce Good, CEO, WSP
